Professional Summary

Creative Graphic Designer and UI/UX Designer specializing in creating visually engaging digital experiences. Skilled in website design, mobile app interfaces, illustration art, digital artwork, poster design, and T-shirt design. Experienced in Figma prototyping, branding designs, and freelance creative projects with a strong focus on user-centered design.

Experience

UI/UX Designer – LearnilmWorld

Feb 2026 – April 2026

- Designed complete website interfaces including student login, trainer login, landing pages, and multiple user flow screens using Figma with interactive prototypes.
- Created responsive UI layouts by applying UX principles, improving user navigation and overall digital experience.
- Designed social media creatives and promotional posters for the organization to enhance brand communication.
- Certificate: [View Certificate](#)

Projects

Spotless – Household Service App Design

[Figma Prototype](#)

- Designed a complete mobile application UI for connecting customers with household service workers.
- Created two separate user experiences: Customer and Worker, including booking flow, worker notifications, profile viewing, payment details, and service management features.
- Developed interactive prototypes in Figma focusing on smooth user journeys and practical real-world service workflows.

T-Shirt Design – Illustration Artwork

[Portfolio Link](#)

- Created original T-shirt designs using Adobe Illustrator with self-developed concepts and creative illustrations.
- Designed aesthetic artwork by combining typography, digital illustration, and modern visual styles.
- Focused on creating unique wearable designs suitable for fashion branding and merchandise.

Poster Design Collection

[Portfolio Link](#)

- Designed multiple creative posters including magazine layouts, movie posters, agency templates, and promotional designs.
- Applied principles of typography, composition, color balance, and visual hierarchy to create impactful designs.
- Developed versatile poster concepts for different industries and branding requirements.
